# Touchbet Roulette

If you like the simplicity of Roulette, but would prefer the comfort and privacy of playing from your own screen then Touchbet roulette is for you. Thanks to technology you can place your bets and collect your winnings easily at the touch of a finger.

To play Touchbet roulette simply enter monies into the terminal then select from one of the three live games. After selecting the table you wish to play the Roulette table of your choice will be displayed along with your credit balance. Touch the screen on the numbers or combinations of numbers that you would like to bet upon pressing cancel if you want to change your bet. Then simply wait and see if your number comes up. When you win you will see your winnings credited on the screen. You can then either play on or collect your winnings by pressing CASH on the screen. A ticket will be dispensed which can be exchanged for cash at the CASH DESK.

## How to play

- Insert £1 coins or bank notes into the terminal. £5, £10, £20 and £50 notes are accepted.
- Credits or chips will then be registered on your screen.
- Select which of the 3 live games you wish to play.
- You can start playing by simply touching the screen. Then to start betting simply touch the number you want to bet on, touching it once plays one chip, touching twice plays two chips etc.
- The minimum bet is displayed on the screen. These minimums range from 25p and £1, with maximums ranging from £25 up to £100.
- When "no more bets" is announced your terminal will be "locked out" and no more betting will be allowed.
- When the ball drops the winning number is announced, for example "15 Black".
- Your winnings are displayed in the "win" box. *When you would like to collect your winnings, simply press the "CASH" sign on the screen. This will then dispense a ticket, which you can exchange for cash at the CASH DESK.*

## Additional Bets

If you are a more experienced Roulette player, classic French bets and neighbour bets are catered for. This is available on a second screen. You may choose the numbers and the chips you wish to play. When "no more bets" is announced the main screen returns. When the ball drops the winning number is announced and displayed. You may place your bets in the second screen and revert back to the main screen to see the bets that you have played on the layout.

**New to gaming?** Broadway Casino can organise training tables for groups to ensure you and your guests are up to scratch in no time.
